

Regarding Training – Development & Placement:

BIT extends its best co-operation and all possible support for suitable placements of its students in various industries as the same is considered as one of the prime responsibilities of the Institution. Training and placement cell of the institute is fully aware of the liking of each student along with the strength and weakness of a particular student. The students are sent for interview/ placement where they are best suited. The aptitude of a particular student is found out by applying latest HR tools and techniques and by employing professional agencies. It helps the students for their future career advancement and also helps the prospective employers to interview the right kind of candidates. The training & placement cell organizes placement interviews for the students in the college campus and also at the premises of the prospective employers.
